# Snow Detours

The following routes are most likely to be affected by severe weather. You may board your bus along the unaffected portions of the route. If your route is not on the list below, your bus is probably able to run its normal route. Service on *all* routes may be running much slower than usual. Storms are different and this sometimes forces us to take detours different from the ones shown here.

If snow is on the ground, visit [piercetransit.org](http://piercetransit.org) before you leave to catch your bus. A link on our home page will take you to the very latest detour information. Look for this symbol on your route page to view the detour map.

Get the latest updates sent directly to you through PT's Twitter feed. [Twitter.com/PierceTransit](https://twitter.com/PierceTransit).

**OneBusAway.org** Visit [OneBusAway.org](http://OneBusAway.org) for real-time bus information from any mobile or internet device. Or, call 206.456.0609 from any phone.

## TIPS FOR RIDING THE BUS IN SNOW & ICE:

**Wait** for the bus at the top or bottom of the hill closest to the stop.

**Signal the bus** so that the operator has plenty of time to stop.

**Wait** until the bus stops and the door opens before approaching the bus.

**Use handrails** when getting on and off the bus.

**Wear highly visible** and warm clothing.

Every attempt will be made to continue wheelchair-accessible service, however, sand and salt can interfere with the lift mechanism. Call 253.581.8000 before heading to your bus stop. Snowy weather may cause delays and temporary detours, but our transit operators and support staff work to give you the best service possible.
