Pierce Transit
FUTURE PLAN
A master plan for current and proposed BRT routes for Pierce County

BRT features will improve your ride by making it faster and more convenient:
- Frequent and reliable trips every 10 minutes during peak commute times
- Better opportunities for economic development along the corridor
- Green light priority signaling keeps BRT vehicles moving
- New BRT stations will feature pre-payment options and real-time travel information
- State-of-the-art buses that accommodate bicycles on board and are equipped with Wi-Fi
- Level boarding allows for easy access for wheelchair users, bicycles, and strollers

THE BIG PICTURE
Pierce Transit Bus Rapid Transit (BRT) is a service that can be easily and quickly implemented to provide a high capacity, high quality transportation option. Our region is growing. As of 2015 Pierce County had approximately 816,000 residents and 350,000 jobs. By 2040, Pierce County’s population will surpass the 1 million mark, and there will be 500,000 employees working in the county.

The Pierce Transit BRT plan will implement high capacity transit services within Pierce County establishing critical mobility links between our centers and key corridors. A significant benefit of these BRT projects is that they connect to other high capacity transportation options serving other portions of the metropolitan area.

- **RT 1 in Progress**: Pacific Avenue | SR 7 Corridor will be the first BRT route provided by Pierce Transit. The 14.4-mile alignment from downtown Tacoma to Spanaway is currently a strong transit market with robust employment and population.
- **RT 3 Proposed**: This route would travel from Lakewood to Downtown Tacoma via South Tacoma Way. The service connects these three regionally designated growth centers.
- **RT 2 Proposed**: This route would travel from Downtown Tacoma to Tacoma Community College via 5th Street, then on to Lakewood via Bridgeport Way. The service currently connects these regionally designated growth centers.
- **RT 402 Proposed**: This corridor would travel from roughly South Hill Mall Transit Center along Meridian to the Puyallup Station. This service currently connects two regionally designated growth centers.

WHY BRT?
- **BRT grows ridership.** BRT attracts all types of passengers and increases ridership. According to the American Public Transportation Association (APTA), implementing a BRT system can result in ridership gains of 20 to 96 percent.
- **BRT is a convenient way to travel.** Transit must meet people’s changing transportation demands to retain current customers and attract more riders.
- **BRT is a catalyst for business and job growth.** A BRT’s sense of permanence and place lends itself to growth, giving businesses the confidence they are locating in a growing area where customers can easily get to them via transit.

BRT Connects Communities.
Pierce Transit BRT will provide high capacity transit service to underserved employment bases and connect dense residential and employment sectors with designated regional growth centers. Pierce Transit BRT will further the goals of Pierce Transit’s adopted long range plan Destination 2040 by developing our community’s High Capacity Transit (HCT) corridors that connect our cities and county to the wider Puget Sound region.

EXTENDING THE PTBA BOUNDARIES
**OPTION 1: ANNEXATION**

**What can happen?** A new jurisdiction joins the PTBA. A jurisdiction-specific question, only for areas directly contiguous to the existing PTBA. May annex into adjacent county.

**Who sets this in motion?** This gets on the ballot by:
- Resolution of PT Board
- Petition signed by at least 4% of qualified voters in proposed area to be annexed; or
- Resolution of PT Board upon request of a city

**Who decides?** Voters.

**How long does this take?** Can be on next special or regular election in the area to be annexed.

**Vote of the people?** Yes for boundaries and taxation.

**Change the PT Board?** Only if annex area in another county, or if annex area w/ population of greater than 15% of the PTBA at last BCRC meeting.

---

**OPTION 2: PTIC**

**What can happen?** Looks at overall boundaries, areas can be added or subtracted.

**Who sets this in motion?**
- County Council
- Resolution of 2+ cities within the county
- Petition of 10% of electorate within the PTBA

**Who decides?** PTIC is an independent body comprised of reps of Cities and County Council. Cities and County Council have final opportunity to impact map. Voters get to decide on tax.

**How long does this take?** Min. of 120 days. Can be much longer depending on input from cities & public process.

**Vote of the people?** Not for boundary change, but should be followed by vote in new area on taxation. (Risk: can result in PTBA boundaries expanded, but voters in new area not approving tax.)

**Change the PT Board?** Yes. BCRC convened within 60 days after PTIC process.

**Timeline and Decision Points**

1. **PTIC called by County Council, by resolution of 2+ cities within the county, or by 10% of electorate in PTBA.**

2. **1ST PTIC MEETING:** Question posed: Should boundary be changed? If yes, proposed map drawn and sent to Cities for ordinance on inclusion (or not).

SUBJECT:               Committee Structures and Operating Procedures

On March 28, 2019, the Executive Finance Committee (EFC) reviewed proposed committee structures and operating procedures for the Executive Finance Committee and a newly proposed committee — Service Delivery and Capital Committee (SDCC). At the end of the discussion, the committee recommended that the draft procedures be reviewed at the April 11, 2019 retreat, time permitting, and suggested that the scope of the review be limited to the roles and responsibilities of each committee and overall governance of the committee structures.

The operating procedures for both committees defines the roles and duties of each committee, defines the make-up/membership of the primary membership of each committee, proposes (1) at large alternate for each committee, and sets formal guidelines and rules in which the committees will operate.

Highlights of the proposed operating procedures for both committees are as follows:

- The committee meetings will be moved from the fourth Thursday to the third Thursday of each month at 3:00 p.m. and the committees will alternate months.

  Example: EFC meetings would be held: January, March, May, July, September, November. SDCC meetings would be held: February, April, June, August, October, December.

- A quorum will constitute (2) two (3) three members.
- Each committee will be comprised of (4) four primary members and (1) one at large alternate from the Board of Commissioner membership. The SDCC would include a member from the CTAG.
- Authority Level for EFC (no change to authority level) - approve contracts for goods and services up to $1 million (pursuant to Resolution No. 2008-018) and all contracts for Pierce Transit to acquire or use property of others or to allow the use of Pierce Transit property by others which exceed the CEO’s award authority up to a maximum amount of $1 million.
- Authority Level for SDCC (new authority level) - approve contracts for goods and services in a value up to $1,000,000; approve capital project budget changes valued up to $500,000, but no more than twice during the course of a capital project.
- Attendance expectations.
- Telephonic participation expectations.
