

### Route Types

#### Frequent

Trunk routes run earlier, later and more often along major streets.

#### Standard

Routes connect urban and suburban areas to transit centers, typically every 30-60 minutes (see schedules).

#### Express

Faster and more direct AM/PM service connects major destinations with fewer intermediate stops.

#### Seasonal

Local service only operates for a few months every year.

#### Link T Line

Service operated by Sound Transit runs frequently through downtown Tacoma.
